(54) **DNA OF CODING MURINE ST2L, EXPRESSION
PRODUCT OF THE SAME DNA AND
PRODUCTION OF EXPRESSION PRODUCT BY
EXPRESSING THE SAME DNA**

probe, etc.

CONSTITUTION: This cDNA of a murine ST2L coding a specific amino acid sequence is synthesized by using a murine mRNA as a template. Furthermore, the murine ST2L is produced preferably by recovering the expressed murine ST2L, by culturing a transformant holding a vector containing this DNA.

(57) Abstract:

PURPOSE: To obtain a cDNA of a murine ST2L coding a specific amino acid sequence and suppressing the cell division of a cancer cell, etc., and useful as a DNA
